DETAILERS KIT A102

EZ Shine P101

EZ Shine is a static eliminating quick detailer that's as versatile as it is effective. Spray down and wipe off a dusty car between washes to keep up that just waxed look or cut 1:1 with water for use as a clay bar lubricant. When applying EZ Shine remember to use a clean microfiber and turn frequently.

Fire Power C58

A non caustic, low foam cleaner for use where strong chemical odor is a problem. Powerful surfactants make Fire Power a potent cleaner without the discomfort of traditional caustic cleaners without sacrificing cleaning ability. Perfect for scrubbing machines and extractors where low foam is desired.

Cover All F96

This is a solvent-based ready to use dressing. This product produces a high gloss finish. On tires, just spray it on and let dry. No wiping is required. The product will not run, is easy to use and will last longer than other dressings. The product should be allowed to dry before driving away.

Aqua Gloss F78

Zero V.O.C.'s and all business, this concentrate dressing will fill every single need you have for shining and protecting rubber and plastic. Whether it's brushed on full strength, cut 1:1 and sprayed on for high gloss on tires or 2:1 on interiors and motors Aqua Gloss has what you need. Water based to allow you to control the level of shine. More Aqua Gloss equals more shine.

Rage Cleaner C66

Superior Products premier all purpose exterior cleaner. Rage will be the most effective cleaner you have used for Tires, Wheels and Bugs or your money back! Dilute 4:1 in one of our empty 5Gal containers for most exterior cleaning. Spray on, let dwell for a few seconds and power wash off. It's that easy.
