

Dirt Buster C60

TECHNICAL DATA SHEET

Description

Premium quality high foaming vehicle soap designed for the clear coat on today's cars. This high foaming formula contains some of the most cutting edge biodegradable surfactants available. Dirt Buster will break down and suspend the dirt and grime from the vehicle prior to the rinse cycle. This soap also contains water softeners and rinsing agents to improve the cleaning requirements of the most demanding car wash and detailing personnel. Dirt Buster works best and most efficient when used in hand wash applications.

Advantage

Produces a fantastic rich foam show. The high foaming formula and optical brighteners are a must for customer appeal. Designed to maintain and preserve clear coat finishes as well as all modern acrylic and enamel finishes. Formulated to be non-filming and clean rinsing. The unique PH neutral formula creates a safe and environmentally friendly soap for your car wash or detail soap.

Directions

For hand wash applications, pour 2 ounces into a clean bucket and spray cold water directly into the bucket. Dirt Buster will foam up and is ready to clean. When using a Hydro minder Proportioning System, dilute 60:1 to 125:1. Do not allow product to freeze. Freezing separation can occur at 32° F but will not affect performance. Just shake soap before use if this happens.

Specifications

Physical form	Liquid
Color	Red
Scent	Cherry
Density	10 lbs. per gallon
Foam test @ 1% solution	120 to 145 mm
pH Solution	8.2
pH 2% Solution	8.2
Biodegradable Surfactants	Present
Optical Brighteners	Present

Shipping Weight in Pounds

55 gallon plastic drum	550 pounds
