

Clear View G70

TECHNICAL DATA SHEET

Description

Clear View is a versatile, concentrated liquid glass cleaner that delivers exceptional cleaning power while being highly economical. Depending on the job, it can be diluted to suit your needs, with recommended ratios ranging from 10:1 for light cleaning to 4:1 for tougher tasks.

Clear View effectively cuts through grease and grime, leaving appliances, windows, mirrors, and chrome spotless and gleaming.

Advantage

The ammonia-free formula makes Clear View the safest choice for cleaning ceramic or film-tinted windows, ensuring no damage to delicate surfaces. Its non-streaking formula guarantees a flawless, crystal-clear finish, while its powerful grease-cutting action leaves surfaces shining.

Directions

Dilute with water according to the job requirements: 10:1 for light cleaning or 4:1 for heavy-duty cleaning. Apply the solution to the surface with a spray bottle, sponge, or cloth, and wipe clean with a lint-free towel or microfiber cloth for a streak-free shine.

Specifications

Physical form	Liquid
Color	Blue
Scent	None
Density	9 lbs. per gallon
pH Solution	9.4
pH 2% Solution	8.9
Biodegradable Surfactants	Present

Shipping Weight in Pounds

55 gallon plastic drum	495 pounds
30 gallon plastic drum	270 pounds
5 gallon plastic pail	45 pounds
